The names yesterday were again abodes of silence and quietnde, showing now well the Christmas holidays are kept by our people; but the holidays are mided by the tremendous and unusual weather, which is unfavorable to the movement of merchandise, while the condition of the river restricts receipts. Exchange was steady at the existing rates, quoting New York buying at ½ discount, a siling at par; New England sight %, demand same as New York, both selling at par. Gold, from the opening to noon, was steady at 107 in the New York quotations and selling at 108. Silver is steadily advancing in the markets. A few months ago retail merchants in San Francisco, Virgima City, and other cities on the Pacific slepe were unwilling to take the trade dollar at a valuation of 90 cents. In the maining districts they were compelled to regulate the value of the wining to take the trade doubt at a variation of 90 cents. In the mining districts they were compelled to regulate the value of the trade dollar artificially, by agreeing not to receive it over their counters except at a certain discount. Speculators were quick to take advantage of the depreciation in "trades" by having these are for the China and Japan but these are for the China and Japan but there are for the China and Japan but the counter of the depreciation in "trades" by having these are for the China and Japan but the counter of the depreciation in "trades" by having these are for the chickens, the counter of the depreciation in "trades" by having these are keg; burrels, \$9. Sparceribs, 9e per lo. by the carcass. Pag s per lo. by the carc buying them up for the China and Japan trade and withdrawing them from circulation. The rise of silver in London has brought them up to par. On Thursday last cass. Venison—saddles, 10c. brought them up to par. On Thursday last the rate of silver per standard ounce was 56%, being an advance in the London market of 1014d from the quotations of July 10th.
The scarcity of fine selver in London and San
Francisco, the increased demand from China
and the East Indies, the diminished yield on the Pacific coast, and the action of Germany in refusing to seil silver under 55d, all point to a marked advance in this coin. In our market nothing was reported in bonds or scrips; Shelby con ity scrip is looking higher, a lot was bought yesterday at 94; Arkansas

The telegrams were cheering. , although receipts were 43,000 bales and the day before 36,000 bales, was buying freely at an advance; New York and New Orleans also advanced. In our market there was a good demand, but notwithstanding a stock in the sheds of 93,000 bales, holders were not ready sellers, offering being, to a arge extent, confined to undesirable cottons askings were very firm, and an advance s cured, at which advance the market closed Large amounts of the cotton her are held altogether off the market.

TO POLICY-HOLDERS OF THE ST. LOUIS, CONTINENTAL, AND SECURITY LIFE INSURANCE COMPANIES.—You are hereby cautioned against attempts of interested parties to transfer your policies to other worthless institutions. A systematic effort is now being made by agents of a class of weak companies to profit by your adsfortunes. Give all such agents a wide berth, and save what you can of the value of your policies. The best informed and most disinterested advice that can be given to the Continental, Security, and St. Louis Life Insurance policy-holders is, that any company that asks the assignment of your policies means to get the best of the bargain, and that, particularly if there is any reserve, the policies have some value, which can be best secured by holding on to them.

While the Mutual Benefit Life Insurance Company, represented by the undersigned, does not assume the risks of failing companies, we will most cheerfully formish information to parties intensied in the above named companies, and aid them in securing the reserve value of their policies.
